## ABOUT US

## Products made to last, right here in Australia. That's the Southern Wire way.

Southern Wire is an Australian family-owned company, manufacturing in Australia established in 1993. A focus on quality and innovation from the beginning has ensured that Southern Wire continues to offer a range of superior agricultural fencing products and solutions that are unrivalled in the market.

The quality of all Southern Wire's products are backed by the full resources of the company. Southern Wire maintains the highest of standards throughout every stage of the manufacturing process, ensuring that our full range of fencing can be confidently specified in the most demanding of environments across rural Australia.

When you use a Southern Wire product, just like you, it's going to do the job... and we stand by every product we sell. From prefabricated wire products, vermin fencing and galvanised wire netting - to wire, straining and fence posts; right down to farm gates, automatic openers and everything you will need to put it all together.

**You know our name - we know your story.**

YOUR FENCING PARTNER

## RAPIDCLIPS®

Welcome to the new age of fast fencing systems with the introduction of the Southern Wire Rapid Clip system which makes attaching wire onto steel posts a simple and painless process.

The unique Australian designed and made Rapid Clips are constructed from a heavy duty 4.00mm heavily galvanised wire and can be easily incorporated into any traditional farm fencing system where steel posts with holes are being used to secure barb, plain and prefabricated wires. The Rapid Clips take mere seconds to install in comparison to the manual tie or post clip methods which often involve time consuming and repetitive twisting actions and easily the least favourite job for any fencing team. Consider the Rapid Clip system for your next fencing project to experience the difference for yourself.

**“ Southern Wire's new Rapid Clips seem too simple to work, but they appear to do the job admirably. The clips are quick and easy to install and no amount of shaking seems able to dislodge them”**

KONDININ GROUP – Farming Ahead 2022

CODE	PRODUCT	QUANTITY
<b>RAPID CLIPS - 4.00mm</b>		
8782	Pack of 250	250
8782	Pack of 1000	1000

Available in packs of 250 and 1000 clips

**Locked In:** The Rapid Clip appears loose once in but the narrow hook over the line wire prevents from rotating and coming out of the post hole

# VERMIN FENCING - Increasing Productivity & Protection

## Past Projects

Southern Wire has manufactured and supplied over 10,000km of feral exclusion fencing in recent years. Some of these projects include:

### 120km | Mungallala

15/150/15 Griplock & 230cm Rapid Posts

### 320km | Quilpie

16/180/15 Griplock & 240cm Rapid Posts

### 40km | Aramac

15/150/15 Fastlock with Apron & 230cm Rapid Posts

### 100km | Quilpie

16/180/15 Griplock & 210cm Rapid Posts

### 120km | Barcaldine

15/150/15 Fastlock with Apron & 240cm Rapid Posts

### 200km | Aramac

15/150/15 Griplock & 240cm Rapid Posts

### 120km | Bollon

15/150/15 Griplock & 230cm Rapid Posts

The demand for feral animal fences has increased with the continued focus on land productivity and improving farming practices. By excluding vermin animals from your property you have better control over the use of your land to increase profitability and sustainability. Southern Wire's team have worked with landholders over the past 20 years on different designs of fences for many and varied applications and would be glad to discuss your requirements. They can provide you with photos of many different fences to give you ideas for your own project.

13/150/15	Fastlock with 30cm Hinged Apron
15/150/15	Fastlock with 30cm Hinged Apron
17/180/15	Fastlock with 30cm Hinged Apron
15/150/15	Griplock including 35cm Radius Apron
16/180/15	Griplock including 30cm Radius Apron
*No. of Horizontal Wires / Fence Height (cm) / Vertical Wire Spacing	

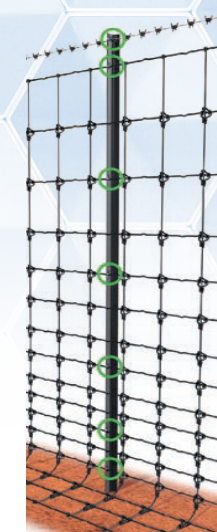

## Griplock with Radius Apron

The Griplock with Radius Apron has what is widely regarded as the strongest fencing knot on the market. It is designed to withstand the extreme pressure placed on fences that are in an area with significant vermin presence.

The wire spacings of the 16/180/15 Griplock allow the bottom 300mm section to form a radius onto the ground to prevent animals from being able to push under the fence.

This product comes standard with 2.8mm wires at the top and bottom as well as where the fence is radiused to create the apron. Aside the common 16/180/15 size we are able to manufacture custom products to suit your particular requirements.

16/180/15  
Griplock  
including Radius Apron

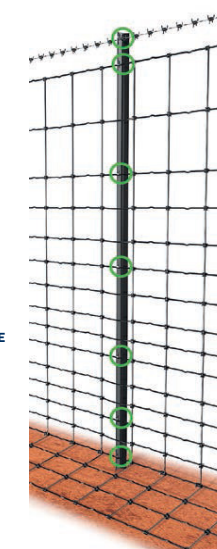

## Fastlock with Hinged Apron

The Fastlock with Hinged Apron is designed to provide a barrier against vermin such as wild dogs and pigs, and also to control kangaroos, wallabies, and emus.

The Apron folds at 90° to the fence so it runs along the ground, preventing these animals from being able to push under the fence. The fence is available in a range of heights and wire spacings - the most common is 15/150/15 with a 300mm apron. This product comes standard with 2.8mm wires at the top and bottom of the fence as well as at the edge of the apron. Additional 2.8mm wires can be added to the fence on request.

Aside the common 15/150/15 size we are able to manufacture custom products to suit your particular requirements.

15/150/15  
Fastlock  
plus Hinged Apron

## TITAN POST DRIVERS

The Titan Petrol Powered Post Driver is recognised as a leading post driver in the agricultural industry assembled and serviced by Southern Wire in Australia using a genuine Honda 4-stroke petrol engine.

### Contractor Post Driver

Designed for fencing contractors.

- Powered by a 35cc, Honda 4-stroke engine.
- 1,850 beats-per-minute.
- Fits over standard size and XL steel star posts.
- Adapter sleeve for 25mm - 50mm posts.
- Weighs 20.5kg.
- Sealed bearings and Viton O-rings for long tool life.
- Internal dampening springs to lessen vibration to the operator.

# PREMIER50™

“The Strength You Need For Tomorrow.”

## COATING TECHNOLOGY

The **PREMIER50™** coating was developed for the aquaculture industry where it is used in the harshest ocean environments. Southern Wire has taken this technology and applied it to its rural fencing products to create one of the longest lasting range of fencing products on the Australian market which includes prefabricated wire (**Fastlock PREMIER50™**), plain wire and barbed wire. **PREMIER50™** fencing products provide greater lifetime value for both you and the future generations.

### The Problem

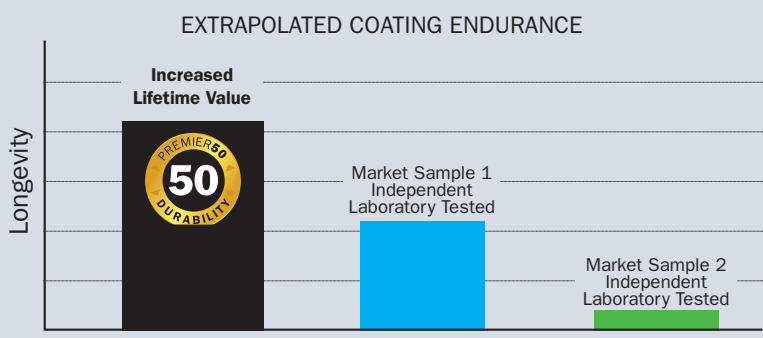

**Harsh Environment**  
Australia's challenging conditions where corrosion of fences is a problem faced by farmers and property owners.

### The Solution

**PREMIER50™ Coating**  
Heavy Zinc/Aluminium **PREMIER50™** coating that minimises effects of corrosion.

### The Result

**Increased Lifetime Value**  
Provides a longer lasting, more durable fence that stands the test of time.

## GATE OPENERS

If you're tired of getting out of your vehicle to open the driveway gate, a Mighty Mule gate opener will put those days behind you!

Southern Wire, distributes and services the American range of automatic gate openers in Australia. They are amongst the most popular in the world due to their reliability and easy DIY installation. All units are battery powered which can be charged by mains power or using the 10W Solar Charging Kit. The SMART Series is now available which allows you to open the gate using your smart phone.

### Single Swing Gate Openers

- MM260** Farm Gate Opener
- MM371** Medium Duty Opener
- MM571** Heavy Duty Opener

### Dual Swing Gate Openers

- MM272** Farm Gate Opener
- MM372** Medium Duty Opener
- MM572** Heavy Duty Opener

See website for further details.

## HORSEFENCE

**Southern Wire is the original manufacturer of the revolutionary HORSEFENCE in Australia. Used extensively throughout horse studs and properties across North America and Europe, the Southern Wire Horsefence is renowned as the fence that offers ultimate security and protection for equine property.**

**HORSEFENCE** is fast becoming an all purpose multi application fence due to its high tensile nature (trampoline effect) leaving both animals and the fence intact after impact, whilst maintaining a constant protective barrier against vermin.

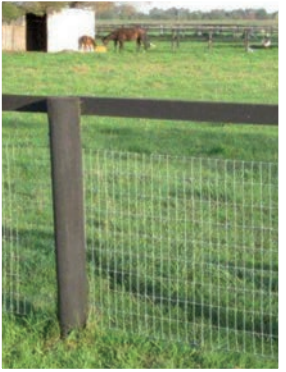

**HORSEFENCE** is quickly becoming the preferred choice of discerning equine property owners and managers.

**Southern Wire HORSEFENCE** provides:

- **Longevity** – Manufactured in Australia using high quality, heavy galvanised wire.
- **Safety** – Compact, smooth knot minimises possibility of injury.
- **Protection** – Crimped line wires absorb pressure and reduce injury risk.
- **Peace of Mind** – 5cm and 10cm spacing prevents horses becoming tangled in the fence.

Code	Fence	Description	Weight (kg)
<b>FASTLOCK® HORSEFENCE – All wires 2.50mm Heavy Galvanised</b>			
7113	10/90/5 x 50m	Horse	70
7117	10/90/5 x 100m	Horse	140
7200	13/120/5 x 50m	Horse	90
7209	13/120/5 x 100m	Horse	180
7205	16/150/5 x 50m	Horse	110
7215	19/180/5 x 50m	Horse	130

10/90/5 – 10 line wires; 90cm fence height; 5cm between vertical wires

YOUR FENCING PARTNER

# RAPIDFENCER®

The **RapidFencer** allows you to easily handle 3 x 500m rolls of prefabricated fencing, rapidly rolling it out and being able to strain the fence at any point along the fenceline using a unique, hydraulically operated clamp - all from the comfort of your skid steer or small tractor!

This same clamp is used to hold the mesh tight while you join the next roll of wire or when tying off to a strainer post. The **RapidFencer** concept has been proven by hundreds of Australian farmers and fencing contractors over the past decade to make fencing fast and easy, eliminating much of the back-breaking work that is generally associated with the task.

The **RapidFencer** comes standard with Euro Hitch mounting hooks and provision to attach most other hitch types.

**FAST & EASY INSTALLATION...**  
**< SCAN CODE & WATCH OUR VIDEO!**

- **No more manual heavy lifting.**
- **Save on labour and time.**
- **Strain fencing from the comfort of your tractor.**
