

FASTLOCK[®]

Fastlock[®]

Since its introduction to the market, Southern Wire Fastlock[®] has become the fence of choice for farmers, station owners and fencing contractors, due to its exceptional value and performance.

Made from high quality, heavy galvanised wire, Fastlock[®] uses the improved version of the old ring joint knot called the square knot which prevents the vertical wire from slipping along the horizontal wire. The Fastlock[®] also has a one piece vertical wire, giving the fence greater vertical stability. These two factors ensures Fastlock[®] is both easy to strain and low maintenance, saving time and money.

Southern Wire Fastlock[®] provides:

- **Longevity** – Manufactured in Australia using high quality, heavy galvanised wire.
- **Strength** – Strong square knot that prevents vertical wire from slipping.
- **Stability** – Single picket wire to provide long-lasting vertical integrity.
- **Durability** – 2.80mm top and bottom wire to manage heavy stock pressure.

7041	8/90/30 x 500m	Boundary	238

7/90/30 – 7 line wires; 90cm fence height; 30cm between vertical wires

Testimonials - what the contractors and agents say...

"Anyone that has tried Fastlock has always come back for more. We have found that those farmers looking for the optimal combination of strength and longevity cannot go past the Fastlock range."

Sue Herbert - WA

"I tried as hard as I could to kick the verticals sideways, but couldn't budge them. The Fastlock fence has also pulled up beautifully and straight, and the fence looked absolutely spot-on!"

Greg Francis aka 'Spud' - VIC

"Never, ever had a drama. So much better and so much easier to use."

Jeremy Storrier - NSW
